

Basketball New Brunswick has developed a partnership which presents a great deal on quality shot clocks. These are the same clocks that BNB uses at the SummerFest Tournament.

By purchasing in volume, we are able to offer these quality units at a price of **\$ 1095 per set**, (taxes and shipping included) with delivery to the BNB office. Any additional shipping from office to purchaser will be charged to the purchaser.

Clocks must be plugged into wall outlet to operate, and control unit can plug in or run by re-chargeable battery (4 hours). Cables are included (from control unit to clocks), or wireless operation can be used.

Wheeled stands are not included with the purchase, but are available for an addition cost.
